

## WOMEN TO BRAVE POLICE IN POSTING SUFFRAGE PICKETS

In defiance of orders from Major of Police Pullman to stop picketing the White House, members of the National Woman's Party planned today to re-establish a picket line in front of the Executive Mansion tomorrow.

According to present plans, three suffragettes will leave headquarters at Cameron House a few minutes before noon, headed by the White House gates. They will bear the regulation tri-colored suffrage banners. No attempt will be made, it was said by party leaders, to flaunt the "Kaiser-Wilson" banners.

An attorney has been retained by the women to fight their cases should arrests follow.

Miss Lucy Burns, vice chairman of the Woman's Party, today brought cheerful news of the six picket prisoners now at Occoquan. She visited them and held a long conference last night. She declares she found them "thin," but unyielding in their determination to "stick out" the imposed sentences. The time-serving pickets were agreed, Miss Burns said, that matrons at the workhouse were kind and considerate, but said the prison regulations would bear amendment.

## HOOVER TO ASSIST IN RAISING OF SHEEP

### Will Furnish Small Farmers With Start of Flocks.

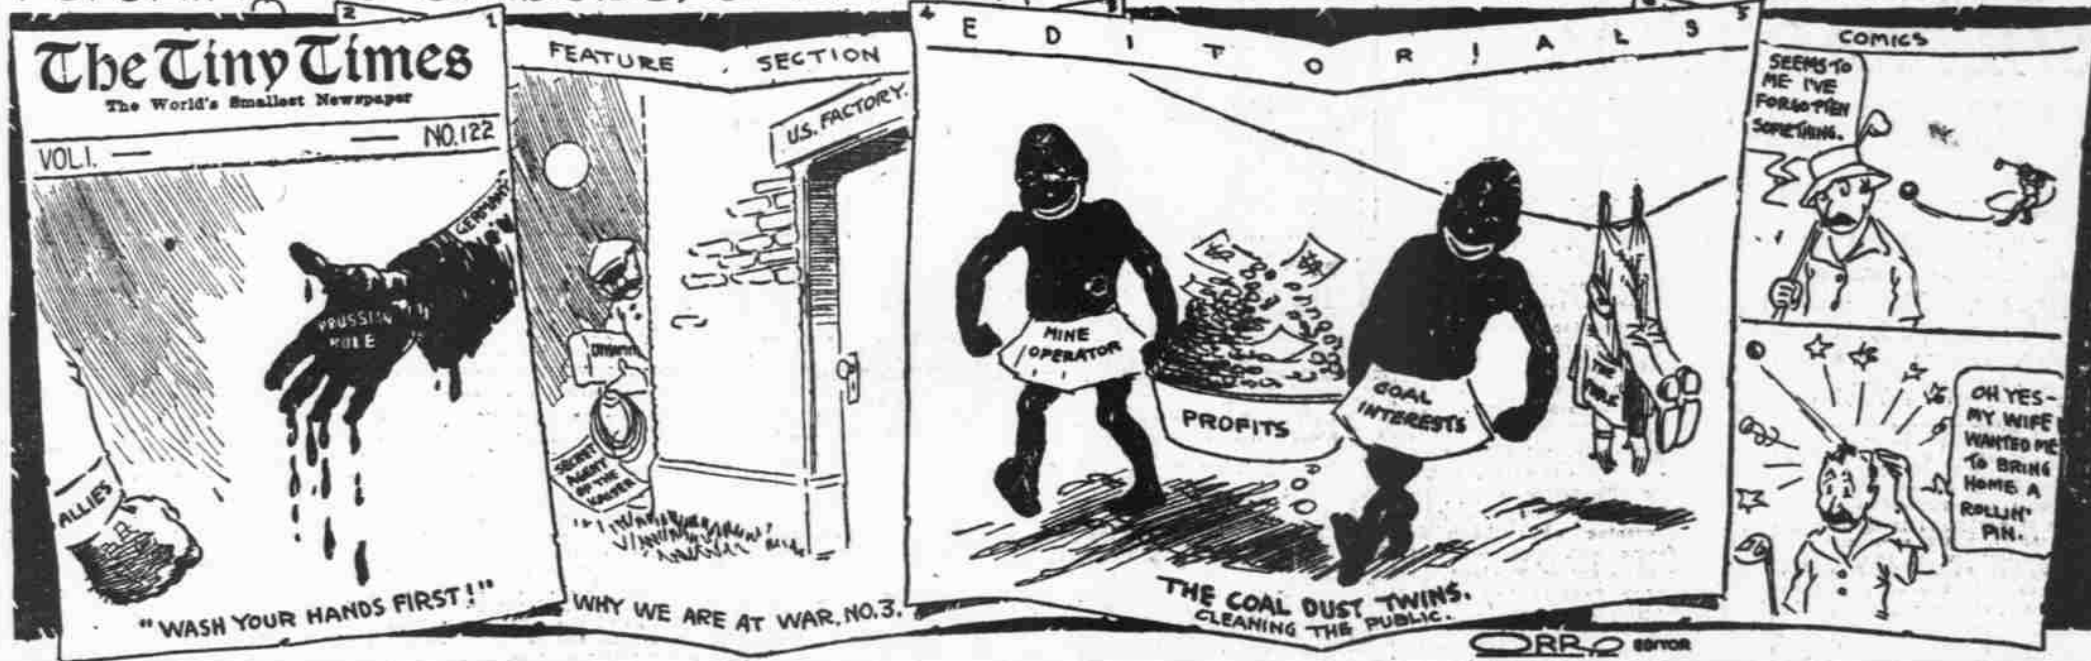

"Eas-bas, black sheep, have you any wool?"

"Yes, sir; yes, sir! Mr. Hoover insists that it is my patriotic duty to increase my customary 'three bags full' at least 50 per cent, besides raising a family of woolly little lamblings to do their respective bits."

Some such revision may be made of the old rhyme, for the food administration is encouraging the raising and breeding of sheep, and will help small farmers to get flocks started in a minimum amount of time. In conjunction with the Department of Agriculture, the food administration will encourage the use of grazing lands now lying idle, and when a shortage of grass is threatened in the Southwest will work to have the flocks transferred to central and Southern States.

Sheep, it is pointed out, can find

Pershing is on base, and it's up to the rest of us to "sacrifice."

## "Idle Rich" Search For Jobs To Evade New "Loafer Law"

BALTIMORE, Aug. 22.—All of Maryland's idle rich are scurrying about for alibis in the form of jobs since the compulsory work law went into effect yesterday.

The clerk of the Superior Court, who records the idlers, had a narrow escape from being crowded out of his office when the third registrant, weighing 350 pounds and standing six feet in his stockings, heaved into his quarters shortly before noon today. The newcomer, Ralph D. Perry, an attorney, thirty-six years old, made the casual remark that he came to Baltimore two years ago for the purpose of reducing, and in those two years had lost eighty pounds.

Only sixteen men were registered during the day.

Sustenance where the grass is too short for cattle grazing, and they are now in great demand, both to clothe the armies and feed the people of the allied nations.

## Doctors of Dancing Merge Steps in "National Victory"

NEW YORK, Aug. 22.—Mr. Fraynor, a short man with a long Van Dyck beard and a very serious expression, being literary secretary to G. Hepburn Wilson, M. B. (the initials meaning Master of the Buck-and-Wing, or something), and associate editor of the Modern Dance Magazine, made it perfectly clear to a reporter that the Germans are going to lose the war right here on the dancing floors of America.

Modesty Among Friends.

Mr. Fraynor, who did not give his full name because he said Mr. Wilson was the creator of all the new dances and should have all the credit, was slipping the latest red-hot news right off the dancing floor (sort of a dancing slipper, as it were) to representatives of the daily press at the opening of the first annual convention of the American National College of Dancing and the Inner Circle National Normal School.

The session was in the Hotel McAlpin. About 200 dancing teachers from all over the United States and Canada are attending.

As Mr. Fraynor was saying, Mr. Wilson has invented a new dance which is supposed to become all the rage this fall. It is officially referred to as the Hamble, but Mr. Wilson calls it the National Victory Dance, his literary secretary explained.

"It is a synthesis of three steps—the one-step, the fox trot, and the waltz," said the literary secretary.

"Mr. Wilson created it with the

idea of fusing these individual dances in the same way as the allies have been fused by this war in a common purpose. You get the idea? Quite a wonderful man, Mr. Wilson! The music is very virile, and it ends with notes of victory and peace."

So, Mr. Hohenzollern, the dancing teachers over here are not teaching any side-steps this year.

Now the Chinese Toodle.

The Inner Circle keeps right up with the news and is perfectly aware that China has become a republic (subject to change without notice) and has entered the war. So one of Mr. Wilson's new dances is called the Chinese Toodle.

"It goes like this," exclaimed the literary secretary, jumping up and toddling across the room in imitation of a Chinese. After showing how it was done, Mr. Fraynor said he didn't want to boast, but expected it to drive out the ukelele and the Hawaiian dances.

Mr. Fraynor also told of two other new dances created by Mr. Wilson—"The 1918 Tango," an adaptation of the old exhibition tango to ballroom uses by simplifying it, and "Hello, Pal," described as the "Tribute Song of the Inner Circle," in which the dancers sing these beautiful lines as they dance:

Hello, Pal! We're always glad to greet you.  
Hello, Pal! We're all here now to meet you.  
Co-operation—that rules the nation.  
Hello, Pal!

Another new dance demonstrated yesterday was the Jaz—a fox trot, set to jazz band music.

## 400 MIDDIES RETURN FROM ATLANTIC CRUISE

### Annapolis Men Were on Ships Doing Actual War Duty.

ANNAPOLIS, Aug. 22.—Arriving by rail from various ports along the Atlantic, 400 midshipmen returned to Annapolis this morning from their summer practice cruises. No vessels were available this year for the usual type of practice cruises, so the midshipmen were distributed among the vessels of the Atlantic fleet on actual war duty along the coast.

The midshipmen are enthusiastic over their experience under real war conditions on the cruise just ended. They will immediately be granted their annual thirty days' leave of absence.

PENROSE AUTO TAKES FIRE.

Senator Boies Penrose of Pennsylvania is back in his seat at the Capitol today after an exciting experience near Baltimore yesterday, when the automobile in which he was motoring to Washington caught fire. It is believed a passing motorist tossed a lighted cigar into the top of the Penrose car, which was folded down. The Penrose car was brought to a sudden stop, and the Senator and his friends leaped out while the chauffeur played upon the blaze with a small extinguisher.

## URGES COOKING CENTERS AS ECONOMY MOVEMENT

### Dr. Cora King Wants Talented Women to Do Work.

Community cooking centers, where women of unusual ability will prepare food for a number of families whose housekeepers are not so skillful, would result in great saving, according to Dr. Cora King.

"It's dreadfully wasteful," Dr. King told a number of women in Carroll Hall last night. "For a good cook to waste all her talent on one man when there are dozens who have to eat bricky biscuits and soggy pies every day. It would be wonderful if we could just devise some scheme to let these good cooks feed a lot of men."

Dr. King submitted a menu which she suggested housewives use as a model.

## GERARD CAN'T TAKE HONOR FROM BRITAIN

James W. Gerard, former American ambassador to Germany, would have to renounce his American citizenship before he could accept the order of Knight Grand Cross of the Bath, conferred by King George of England.

This was made plain by the State Department today following the announcement from London that the King had honored the former ambassador to Germany by the decoration.

London papers say the decoration was offered to Mr. Gerard last February, but that he was unable to accept it until his retirement from the diplomatic service. The decoration involves knighthood with the prefixed title of "sir."

## \$10,000 GEMS TAKEN FROM BABY COACH

ATLANTIC CITY, Aug. 22.—Jewelry valued at \$10,000 disappeared from a baby coach on the beach yesterday. It had been left there by Mrs. S. Levy of Philadelphia, while she entered the ocean with her son.

When she returned from the water she discovered the theft and at once became hysterical. Her cries created excitement among the bathers, and it was necessary to take her to the hospital tent.

The police have been called into the case, but so far have been unable to gain any clue to the identity of the thieves.

## AFTER CARNEGIE.

Mr. Millyuns—I will give you my daughter, sir. If you will promise to maintain her afterward.

Suitor—Heavens! You talk as though you were giving away a free public library.—Boston Transcript.

## Can't Build Ships; Workmen Too Busy Fighting 'Skeeters'

CAMDEN, N. J., Aug. 22.—Building ships for Uncle Sam has suffered another setback—but it isn't German plotters who are responsible this time.

The villains in the case are Jersey skeeters.

They are descending in swarms upon workmen at shipyards here and producing sundry swellings and itchings. Two men have sought relief at hospitals.

## PUPILS DECLINE TO STUDY GERMAN IN PUBLIC SCHOOLS

The study of German in the public high schools will be materially reduced the coming term, in the opinion of Assistant Superintendent of Schools Kramer.

During the last term a decrease of nearly 50 per cent in the number of students taking German in comparison with the preceding semester was noticeable. Spanish was generally adopted instead.

"School officials are contemplating no change in the curriculum," said Mr. Kramer today. "We are not encouraging students to drop German, but numbers of them are expected to do so. The policy of school authorities here is to let the students choose for themselves what studies they desire to elect."

Mr. Kramer branded as absurd the rumors that all study of German would be dropped from the curriculum. There is too much good to be derived from such study, he said.

The chief of Cleveland has discontinued the study of German.

## 40 TUTORS IN GERMAN LOOK FOR NEW SUBJECT

CLEVELAND, Ohio, Aug. 22.—Forty teachers of German in Cleveland's grammar grades have begun to prepare to teach something else. Superintendent Spaulding's program of dropping all study of German from the grades today had the formal o. k. of the board. German, French, and Spanish will be taught in high schools on an even plane.

Last year Cleveland spent \$100,000 teaching German. An organized propaganda to advance the study of German was uncovered.

## RESOURCEFUL EDITOR.

We harnessed a motorcycle to the linotype when the storm knocked out the electric power lines, and got out the paper.—El Centro (Cal.) Press.

## Few Drops on a Corn or Callus

Instantly stops pain and they lift right off with fingers.

This tiny bottle holds the wonder of wonders. It contains an almost magical drug called freezone. It is a compound made from ether.

Apply a few drops of this freezone upon a tender, aching corn or a hardened callus. Instantly the soreness disappears and shortly you will find the corn or callus so shriveled and loose that you just lift it off with the fingers. It doesn't hurt one particle.

You feel no pain or soreness when applying freezone or afterwards. It doesn't even irritate the skin.

Just ask in any drug store for a small bottle of freezone. This will cost but a few cents, but will positively rid your poor, suffering feet of every hard corn, soft corn, or corn between the toes, or the tough calluses on bottom of feet.

Women! Keep a tiny bottle on the dresser and never let a corn ache twice.—Adv.

## ADJOURNMENT BY SEPT. 6 POSSIBLE, SAYS SEN. LEWIS

Adjournment of the Senate between September 1 and 6 is possible if the President refrains from pushing all bills except the war revenue bill, in the opinion of Senator Lewis of Illinois.

"I told the President that," Senator Lewis said. "I cannot agree with the statements of some Senators that an adjournment of Congress cannot be had. There can be only two possibilities to prevent an adjournment between the dates I mentioned."

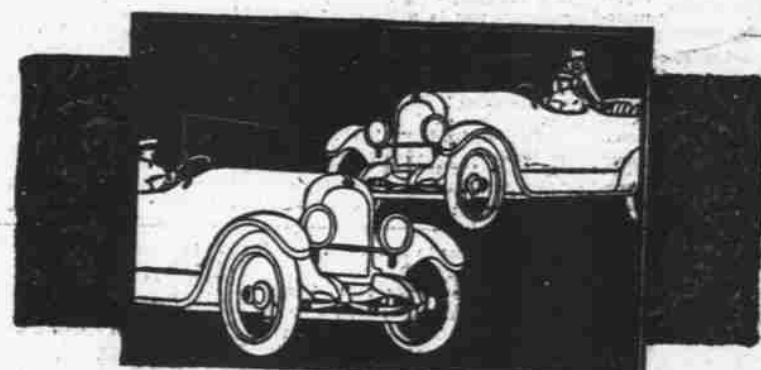

"One might be the occurrence of casualties in our army abroad, the other if the changes in the war revenue bill being made in the Senate should antagonize the House."

"If the soldiers' and sailors' insurance bill can go over until the December session, I feel certain it would go through more quickly than."

## GIRL ESCAPES DEATH BY GAS.

Physicians at Casualty Hospital said today that Mrs. Amy Viola Herbert, nineteen years old, who was found overcome by illuminating gas at her home, 1314 E. street southeast, yesterday was improving rapidly. The police say the girl was found by her mother, who detected the odor of gas, and traced it to her daughter's room.

## MARMON 34

## RATTLES and Their Causes Avoided by Marmon Construction

Squeaks and rattles are "the mental hazards of motoring." Perhaps there is nothing more distracting to the driver of a car, or more embarrassing to the owner.

The Marmon's freedom from disquieting noises is an outstanding feature. But more important still are the reasons for it:

Marmon scientific construction eliminates many parts. The body, for example, is bolted directly to the frame. Intervening sills are done away with. The steel running boards are riveted to the frame, and that abolishes hangers, side-shields and extra fastenings.

In ordinary cars all such parts are dead weight. In the Marmon their work is done by structural parts—by live, working parts.

There are no heavy fender irons. Fenders are aluminum, bolted directly to the frame and running boards.

In many ways Marmon construction eliminates useless supports and joints—the greatest causes of squeaks and rattles.

At the same time needless weight is also abolished. Fully equipped for the road this long, low car is a half-ton lighter than others of its size and power.
